TRANSLATING SCIENCE INTO ACTION

Backed by the industry's leading pre-competitive sustainability measurement framework, Field to Market's **Continuous Improvement Accelerator** supports farmers and organizations in making decisions based on science, enabling the entire value chain to catalyze action across the agricultural landscape.

Three Continuous Improvement Pathways

INCUBATION

Creating enabling conditions by engaging with farmers on the connection between practices and at least one sustainability indicator

INSIGHT

Offering sustainability insights for farmers and transparency for value chain partners through measurement

INNOVATION

Provides tangible support for farmers in accelerating adoption of practices that deliver improved sustainability outcomes consistent with public project goals

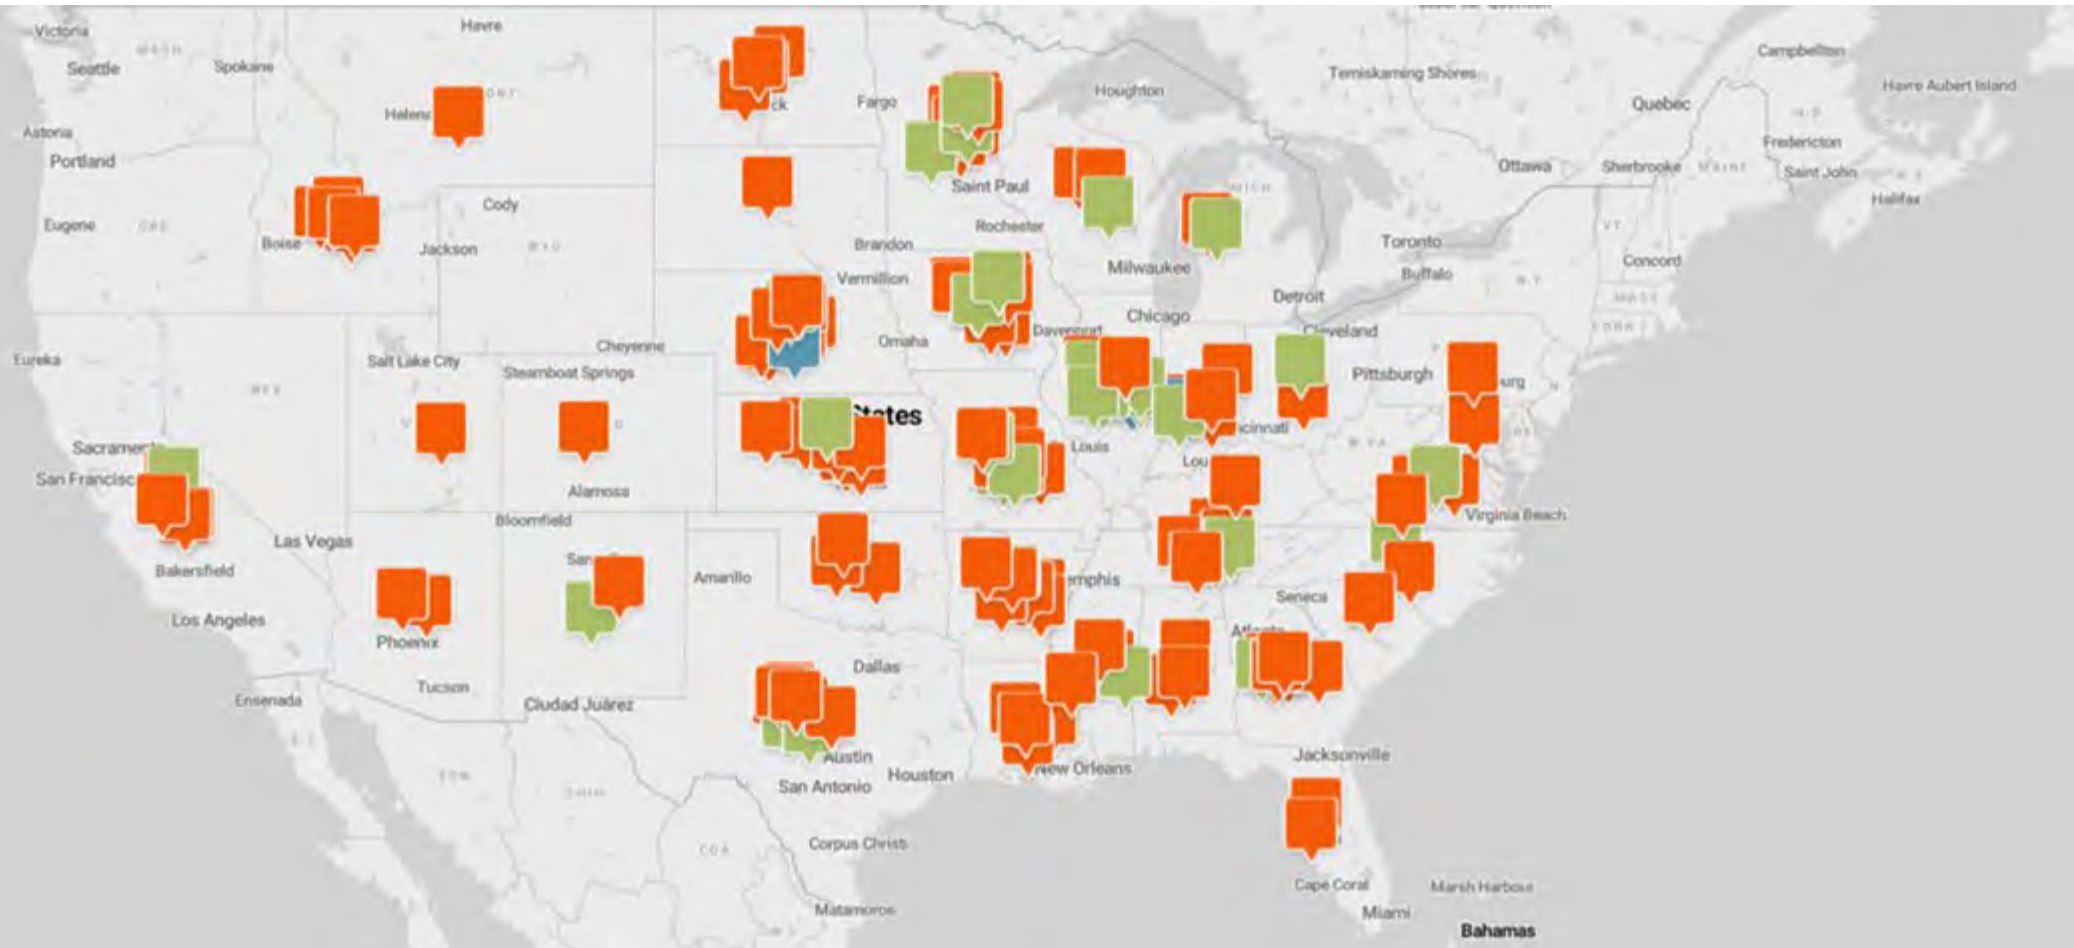

72 Projects Across 35 States

Field to Market Has Enabled Five Claims Categories

PROJECT PARTICIPATION CLAIM

Number of acres
and growers

ADOPTION CLAIM

Uptake of a
specific practice
or intervention

MEASUREMENT CLAIM

One-year
snapshot of
aggregate
environmental
outcomes

TRENDS CLAIM

Directional
improvement in
Field to Market's
metrics

IMPACT CLAIM

Sustained
Improvement in
Field to Market's
metrics

A person wearing a red shirt and a white cap is walking through a field of crops, likely soybeans. The field is vast and stretches to the horizon. In the background, a city skyline is visible under a clear sky. The entire image has a warm, orange-toned overlay.
